

Dr Suttle:

I wanted to say “Thank You” for making our 2009 “Joining Forces: Connecting Care with Technology” convention and trade show a success. Normally, by the end of our three-day conference we have people walking out before the closing session – but thanks to you we still had a room full of attendees.

In your break out session “Mastering Stress Before It Master’s You” the anticipated attendance of 150 grew to approximately 300 people. I have never seen so many people attending one session wanting to hear more. One attendee stated “Dr. Suttle was fun, informative, uplifting and inspirational.”

In the closing session “Leadership: Catching, Motivating and Keeping Your Best Employees” we had a house full. Again, normally we lose several by the end of the day but they all stayed to hear more from you. Some of the comments received: Excellent speaker, Great speaker, Have him back next year; Have him a full day and “Best of Conference”. It is speakers like you that bring attendees back each year.

You are an energetic, motivational and inspirational man and that is what our world and this industry needs. It was a pleasure to hear those attending laughing and singing - I don't know how much this industry does of that in a day's time. Thank you for putting smiles on our attendee's faces and lifting their spirits.

It was a pleasure working with you and your staff as well. I look forward to working with you in the future – **“I will have you back to Oklahoma.”**

Until our paths cross again,

Connie I. Guinn
Education Director
Oklahoma Association of Health Care Providers

P.S. My girls enjoyed meeting and working with you as well. Thank you for being so kind to them and giving them your books and materials. They were honored to receive your books for their collection.
