

Dr. Earl Suttle Testimonial:

Keeping Staff engaged is necessary to running a high-quality program. This includes, a willingness to engage Staff professionally and personally. Dr. Earl Suttle does that...

For our pre-service training in August 2019, he accepted our invitation as the keynote speaker. Dr. Earl's address on "Enjoying Excellence: Making a Difference Within Your Organization" was phenomenal and well received by the Staff. It set the perfect tone to kick-off the new school year. Dr. Earl reminded us, that success begins with the right attitude and a commitment to personal growth. It is equally important to allow people to celebrate their individual victories personally and professionally to motivate and inspire others on the team. Dr. Earl's "5 Pearls to Success" provides an insightful roadmap to follow to make a difference in an organization.

We appreciate Dr. Earl Suttle for his energizing spirit and his innovation approach toward leadership development. His knowledge and enthusiasm are a great combination for a positive result.
