Let Me Make a Difference on Your Team

As a motivational keynote speaker, Dr. Suttle is prepared to rev up your organization and get them ready to tackle problems, identify stressors and avoid the hazards that can derail a team.

It is with pleasure that I write this note of recommendation for Dr. Earl Suttle. I learned of Dr. Earl at the NFL/NCAA Life Skills and Professional Development Summit in Orlando, FL. Dr. Earl's name came up when I asked for insights into someone who was dynamic and inspirational relative to drug education. I found that not only does he do "drug education," but he discusses managing high-risk situations amongst the student-athlete population, conducts leadership training and delivers programming in several other important areas.

As an early morning speaker, Dr. Earl not only "woke up" the group, but had them dancing, singing and learning what their stressors were that could lead them to a high-risk situation. ... Dr. Earl connected with (our football players and student athletes) in a way that as engaging, encouraging and challenged them to come out of their comfort zones.

For those of us in the field who are looking for dynamic, high-energy speakers whom the student athletes can take something away from, I have no higher recommendation than Dr. Earl Suttle.

—**Jean Boyd**, Associate Athletic Director,
University of Arizona Sun Devils

Dr. Suttle's specialty is working with teams, both athletic and business, on increasing their productivity. His presentations include the means for dealing with the stressors brought on by academic, athletic and professional commitments, and staying drug-free in a world full of high physical demands.

Very few people have the ability to inspire people and to elevate themselves, so they can be part of the game and make a difference in this world, like Dr. Earl.

—**Alfred Dowe**, University of Arkansas,
Graduate School and International Education

Dr. Suttle brings twenty five years of athletic and sports-wellness experience with him to his inspirational presentations.

Several institutions including the University of Miami and Indiana University strongly recommended Dr. Earl as an individual who could conduct an interactive educational program on alcohol and other drugs. His presentation was exceptional! He captured the attention of our student athletes for the duration of his high-energy program, which is no easy task. ... I am pleased to be a reference for Dr. Earl and I am willing to have my name and contact information displayed on the NCAA Educational Affairs Grant Registry website. I highly recommend Dr. Earl Suttle and feel that he would be an excellent addition to the registry.

—**Steve Nordwall**, Director of Sports Medicine,
Eastern Michigan University

His Life Skills presentations are perfect for break-out sessions and training seminars of all kinds for students, educators, coaches, and administrators.

As a long-time contributor to the development of NFL players and staff, Dr. Suttle's messages will inspire you to be the "best you can be" in every role of your life. ... Through a really good mix of humor, motivating insights, music and fun exercises, Dr. Suttle kept us fully engaged, interested and entertained... It is with great satisfaction that we recommend Dr. Suttle. You will certainly not be disappointed.

—**Richard J. McKay**, President & CEO,
Atlanta Falcons
